

From the Mainland.

The number of men who passed up the road to Cariboo, since the spring opened, up to the 11th inst., was six hundred. A merchant in Yale learns that the Sheepskin Co's claim yielded 150 oz. for the week ending April 27th, and the Baldhead claim 125 oz. during the same period. The Welch Co had struck \$100 to the pan and expected to take out very rich pay. The Minnehaha claim had yielded 380 oz. for the week. The claims on Red Gulch were doing well. New farms are continually being located in all parts of the interior, and the country about Nicolai Lake will soon be largely occupied, now that the preemption movement has commenced. The sitting of the Supreme Court was to commence on Monday.

We have advices from Fort Shepherd to the 25th April; but the news is very bare. The steamer Forty-Nine was to have commenced running on 1st May. A few men were at work on 49 creek, and considerable prospecting on mountain streams between Kootenay and the Fort was being done—*Yale Examiner*.

Those acquainted with the people of New Westminster will not be in the least surprised to learn that the approaching anniversary of the birth of our beloved Queen is going to be celebrated with unabated enthusiasm in the "ancient capital," and that the recent "capital outrage" has not extinguished their loyalty, if it has excited their indignation and just resentment. As will be seen by reference

to another column, an influential committee has been appointed and a very attractive programme adopted. The financial part of the movement, it is encouraging to know, is progressing favorably. It is anticipated that the sum of \$450 will be at the disposal of the committee. Indeed the whole aspect of the approaching celebration would seem to warrant the conclusion that it will come quite up to any previous occasion of the kind.

We have much pleasure in informing our friends between this and the head of navigation that the captains of the river steamers have, with their usual liberality and good-heartedness, volunteered to carry all parties free to and from New Westminster who may wish to participate in the celebration. This offer will doubtless induce many to come in from the country on that day. We hear that a large number may be looked for from Burrard Inlet. All will be made welcome. *Columbian*.

CUNARD LINE.—The parliamentary paper respecting the Atlantic postal service contains some facts relating to the regularity and dispatch of mails between England and America, which it might be useful, in some measure, to imitate at present here. The report shows that over fifty per cent. of the international correspondence between the two countries is carried by this celebrated line. Its regularity and dispatch appears from the fact, that of forty-two mails leaving the United States on a certain Wednesday thirty-eight arrived in time for delivery in London and the principal towns in the United Kingdom on or before the morning of Monday in the next week but one after the date of dispatch. Of these thirty-eight mails, seventeen were delivered in London and the principal towns of the United Kingdom on the morning of Saturday in the week after the date of dispatch; and to the letters contained in such mails replies could at once be sent by the night mail of the same date. Could we in the smallest degree approximate such punctuality in this respect what an advantage it would be to the general interests of the Colony.

SINGULAR INCIDENTS AT SEA have been noticed in the neighborhood of the Sandwich Isles during the late eruption. Capt. Hunting, of the whaling bark *Harpy*, was, fifteen miles off the coast of Kona at the time of the great shock. He reports a noise on board as if the anchors and chains were running over the bows, and the breaking of the jib, boom by the plunging of the vessel into the sea. All round the islands some most remarkable tidal phenomena have been recorded. For five months previous to the eruption the sun is said to have been literally scorching.

DR LIVINGSTONE ALIVE.—All doubts of the safety of Doctor Livingstone, the African explorer, are now dispelled. Sir Roderick Murchison received a letter, dated London, April 8, 1868, from the distinguished traveler, which came by the way of Zanzibar. Doctor Livingstone writes that he is in good health, that his journey of exploration has been successful and that he will soon return to England.

MONDAY NEXT, 25th inst., is the day selected by the Government for celebrating the Queen's Birthday and proclaiming Victoria as the Capital of the United Colonies, owing to the 24th falling on Sunday. It is said the Sparrowhawk will come into the harbor to fire the salute. The Banks and places of business will close from noon on Saturday until the 26th.

AN AMERICAN LADY, sweet seventeen and handsome, last January accomplished the unequalled feat for a woman of skating thirty consecutive hours without sleep and with only half an hour's rest the whole time. It snowed during the last hour, and yet at the end she darted with great rapidity round the space kept clear for her with brooms.

THE WEST COAST.—A late arrival from the west coast of the Island states, the Indians are peaceably inclined towards white people, and glad to trade their furs and oils for articles of a more luxurious sort. A gentleman who ascended one of the rivers found prospects of gold wherever he tried.

The first meeting of the Confederation League will be held to-night at Smith's Hall, in the rear of the *Morning News* office, at 8 o'clock. The formation of the constitution and election of officers will have much to do with its future usefulness.

A HAPPY CO-INCIDENCE.—In a town in New England, the three principal institutions are placed as follows:—The Medical College on the road to the Cemetery; the Divinity College on the road to the Poor-house; and the Law College on the road to the jail.

The steamer *Enterprise* arrived from New Westminster yesterday afternoon with a large number of passengers. H. P. P. Crease, Attorney General, Robert Kerr, Auditor General, Capt. Ball, J. P., and a number of other officials were amongst those who came down. Several ladies also came over on the steamer.

ASCENSION DAY.—To-day being Ascension Day, Divine Service will be held at the Episcopal and Catholic churches at the usual hour in the morning. At St John's the Rev Mr Hamilton, of H. M. S. Zealous, will occupy the pulpit.

CAPTAIN SWANSON.—We are sorry to state that the medical attendants of Capt Swanson have but little hope of the recovery of that gentleman, who has been prostrated by a serious illness within the past few days.

It is reported in the late telegraphic despatches Mr Justice Chase should be nominated by the Democrats for President of the United States, it will diminish Gen. Grant's chance very much.

In a short debate in the House of Lords on the Alabama claims, Lord Westbury defined the laws of England and denied the justice of the claims urged by Mr Seward.

Strong petitions to the House of Commons against Mr Gladstone's Irish Church Bill are being many signatures throughout England.

STRAWBERRIES.—Wild strawberries, ripe, have already made their appearance, and have been picked in the outskirts of the city. The season is earlier for fruit than last.

TAKE AYER'S CHERRY PECTORAL to stop your Colds, Coughs and Bronchial Affections before they run into Consumption that you cannot stop.

FIREMEN.—The Deluge Fire Co. were out last evening for practice and throw a splendid column of water.

The *San California* cleared at San Francisco for Victoria on Tuesday 19th inst., and will be due here on Saturday next.

On 30th of March last the House of Commons passed a bill abolishing flogging in the army.

The emigration from the United Kingdom for the last fifteen years has exceeded 6,000,000 souls.

The Panama Railroad Company have declared their usual dividend of 6 per cent., and made an extra dividend of 20 per cent.

The Governor.—His Excellency the Governor rose through town yesterday.

"THE LIFE OF THE FLESH IS IN THE BLOOD," was said by inspiration long before Harvey's discovery of its circulation had brought to light its purposes and uses. How we know not only that "life is in the blood," but that disease inhabits it also. Many of the disorders that pervade the human frame, have their home in it, thrive and grow in it. The celebrated Dr. J. C. Ayers, of Lowell, has had regard to this important fact in making a Remedy to cure these disorders. His Extract of Sarsaparilla purges out the impurities of the blood and induces a healthy action in it that expels disease. This looks reasonable, and it is true, for we know by our own experience. Seldom as we taken any medicine, we have nevertheless several times been under obligations to the skill of Dr. Ayer for the relief which his remedies never fail to afford us when we are obliged to have recourse to them.

By Electric Telegraph

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Eastern States.

WASHINGTON, May 18.—The Senate adjourned till 25th May. House offered resolution amending constitution, respecting foreigners residing in this country fourteen years eligible to presidency.

A resolution offered amending constitution by removing all officers of Supreme, Circuit, and District Courts of the United States who have held office eight years; successors to Supreme Judges to be elected by joint convention. Congress shall prescribe mode of election hereafter.

Boyer endeavored to introduce a resolution adding two Democrats to the board of impeachment managers. House refused to consider the resolution.

Banks from committee on foreign affairs reported bill appropriating \$7,200,000 to carry out treaty purchase of Alaska. Washburn presented a minority signed by himself and Morgan, declaring the country alluded to was of no value to the United States and that it is inexpedient to appropriate money for its purchase. Bill and reports ordered to be printed.

Banks gave notice that he would not ask for action before second week in June.

DELAYED DISPATCHES.

Eastern States.

WASHINGTON, May 12.—In the House to-day the Speaker presented a letter to-day from General Grant, giving the votes on the Constitution of the Southern States, viz: North Carolina, 92,590 for 71,820 against; South Carolina, 70,708 for 27,258 against; Georgia, 89,007 for 71,300 against; Louisiana, 66,152 for 43,739 against; Alabama, 59,807 for 10,055 against.

Schenck, from the Committee on Ways and Means, reported a bill to reduce to one cent the duties on the importation of laws. The bill provides that the Revenue Bureau should be a department of the Government independent of the Treasury, a Commissioner to be had thereof, and to

have full power over the appointment and removal of officers without consulting the President or Senate. All revenue agents and inspectors are dispensed with. All business is placed under complete control of collectors and assessors in their respective districts and their appointees.

Collectors of ports of entry have charge of all exports subject to tax, and if more than one, the Commissioner is to designate the one to superintend the exports and drawbacks. His salary shall not be over three thousand dollars, and he is to have charge of all papers and matters relating to exports and drawbacks.

The bill prescribes great care on the part of all officers in receiving spirits at their destination. The provisions for withdrawing spirits from bond for various purposes cover considerable ground and are very stringent in their character.

The committee had a long discussion on the rate of tax on whiskey, and lacked but one vote finally upon the proposition to reduce to seventy-five cents. This failing, it was agreed to leave it at two dollars.

Price, from the committee on the Pacific Railroad, reported a joint resolution to construe the provisions of the Pacific Railroad Acts regarding the use of American iron so as to declare that American iron shall be used for all rails, chairs, bars, bolts and spikes used in laying and repairing the road; which passed.

Price also reported back a substitute for the joint resolution introduced some time since, by Washburne of Wisconsin, to regulate the tariff for freight and passengers on the Union and Central Pacific Railroads and their branches.

After considerable debate, Price moved

Farnsworth's motion to recommit was lost, and the question recurred on the amendment offered by Washburne, of Illinois, to strike out the provision, "shall not take effect until there shall be a complete and continuous line from Omaha to Sacramento." This was adopted. Ayes 76, noes 47.

The question then recurred on the amendment offered by Clark of Kansas, that the tariff shall not exceed double the averaged rates charged on the two different lines of railroads between the Mississippi river and the Atlantic ocean in latitudes North of St. Louis, which was agreed to without division. The joint resolution as amended passed by 76 to 47. Adjourned.

WASHINGTON, May 12.—The United States Marshal of St. Louis has applied for a cavalry force to assist in arresting distillers engaged in violating the tax laws.

The General Conference of the Zion colored Church has appointed Friday next as a day of fasting and prayer to God to aid the Senate to give a verdict in aid of suffering humanity.

NEW YORK, May 13.—Specials say that every form of pressure is being brought to bear upon doubtful Senators.

Mr Henderson has received a number of telegrams from Missouri asking him to resign. The entire Missouri delegation are endeavoring to influence him.

The Iowa delegates held a meeting and resolved not to recognize Mr Grimes as a member of the Republican party.

Mr Forney having resigned as Secretary of the Senate will open his batteries on Senators Fessenden, Henderson, Grimes and Trumbull, denouncing them as recreant to the party.

Telegrams have been sent out to get popular demonstrations, especially in New England.

The doubtful are now composed of the following Senators: Anthony, Frelinghuysen, Fowler, Ross, Sprague, Van Winkle and Wiley. It is believed that Anthony Frelinghuysen and Sprague are certain to vote for conviction; so the President must have both of the West Virginia Senators and Fowler to insure an acquittal. These three, to say the least, are doubtful.

NEW YORK, May 13.—The *Tribune* of this morning says that confidential despatches were received late last night by the editors of the *Tribune*, which leave doubts if the Senate will convict on Saturday.

A leading friend of Mr Johnson considers conviction doubtful and regards the chances about even.

Senator Anthony is safe and that Senator Wiley is sure for two articles and Van Winkle on the 11th.

Henry Bergh, President of the society for the prevention of cruelty to animals, lectured before that society last night, in favor of horse flesh for food. The society rejected a vote recommending horse flesh for that purpose, by nearly a unanimous vote.

NEW YORK, May 12.—Another fearful epidemic is raging in Mauritius, over eighteen persons having died.

Boston, May 12.—The bill abolishing the State constabulary passed the House to-day over the Governor's veto.

Utah Territory.

SALT LAKE, U. T. May 8.—The Cheyenne *Argus* reports four men killed and one wounded at Plum Creek, and two Mexican teamsters killed close to camp sixty miles west of Cheyenne. Thirteen, well mounted Indians made a dash at Sidney Station, near Pole Creek, but were defeated; they, however, shot and wounded with arrows the freight contractors, Wilson, Edmundson, Thomas and Cahoon; also scalping Cahoon. The same Indians, on giving up Pole Creek, riddled with arrows and scalped another man. These Indians were supposed to be from the north.

Cheyenne is full of rumors about the Indians. Red Cloud has arrived at Laramie, and the terms of a treaty with him were drawn up for signature. About two thousand Indians were near the North Platte, showing the greatest contempt for the soldiers. It was expected the Indians would clean out the town, soldiers and all. Great alarm prevailed.

SCIPIO, U. T. May 8.—The Indians made a raid last evening, and drove off fifteen head of horses. The men pursued and fired on the Indians, and recovered nine head of the horses. The men are in pursuit again to-day.

Particulars of the Assassination of T. D'Arcy McGee.

(From the Toronto Telegraph, April 7.)

Mr. McGee left Parliament house at 2 o'clock this morning for Mrs Trotter's boarding house, in company with a member of the house, two men named Buckley, and Trechette, a clerk in the postoffice, all of whom turned off towards their own homes before reaching Mrs Trotter's.

When Mr McGee arrived at Mrs Trotter's door, it is supposed that he was about fitting his key in the latch, when the villains shot him from behind, the bullet passed through the back of his neck, and finding an exit through his mouth. Mrs Trotter's daughter heard the shot, and on going to the door found a body lying on the ground. The door was bespattered with blood. Her brother, a page in the House, at that moment arrived, gave the alarm, and in about a minute the news was heard at the Russell House, 500 yards distant.

The assassin must have held the pistol close to the head of the unfortunate gentleman when he fired the shot. The ball entered the neck behind, just at the base of the brain, and a little to the right. It passed through the head out of the mouth, and lodged in the door, the conical end outwards, knocking two or three of the teeth out in its passage. The hair, at the place where the ball entered, was singed, showing that the assassin must have been quite close when he committed the deed.

There appears to be but one wound. The overcoat was fastened by the top button. The glove of the right hand was shot off, and the hand being under Mr McGee as he lay on his back. Blood had flowed profusely from the wound and found its way in a wide stream across the sidewalk, which is about 15 feet wide. His hat, a white one, was stained with blood, but bore no mark of a bullet. Mr McGee's head must have been inclined slightly towards the door when he was shot, for the mark of the ball is low down on his neck, near the collar of his undercoat. The ball carried the cigar which he was smoking into the recess of the doorway, and when the girl opened the door it fell at her feet.

MR MCGEE'S HABITS.

Of late he has been most temperate and abstemious, but he always had on him the shadow of a coming disaster. In Montreal he feared a violent end, and his family were very careful always about admitting people into his house. His doors were kept constantly locked, and extra police were put on the street here. It is extraordinary how the murderer could have escaped so rapidly and easily as he appears to have done, and shows that the crime must have been long and deeply planned. He seems to have been waiting his opportunity.

THE MURDER ATTRIBUTED TO FETTERISM.

There is no doubt here that this is the result of the frequent threats of assassination made regarding Mr McGee, in consequence of his exposure of Fetterism.

Mr McGee would be 43 years old next Tuesday. His wife did not accompany him to the capital. She remained in Montreal, as did also an only daughter, 16 years old, who is in one of the Montreal convents. Mr McGee also leaves a brother with whom he lived in Montreal.

Mr McGee must have bled profusely, for the stream of blood extends fully four feet. The door is also bespattered with his blood, about a foot below the mark of the bullet hole in it, while inside the building, in a sort of ante room lies the body. His face and gray beard are all clotted with gore. His overcoat is partly unbuttoned, his right hand, ungloved to open the door, lies on his breast; on his feet are warm carpet slippers and woollen socks. His white hat lies near by, all splashed with his life blood, and his walking stick and cane lie near his head.

FIVE ARRESTS THIS FAR MADE.

OTTAWA, April 7.—11:30 A.M.—The Buckleys, P. A. Eagleson, and a brother named Patrick, both of whom were leading members of the St. Patrick's Society here, together with a carpenter named White, the grounds of whose arrest I have not yet learned. The Buckleys assert they do not wish to conceal the fact that they accompanied Mr McGee to a certain point where they parted with him and went to their home. One of them keeps a livery stable here and owns considerable property. The other John, who also keeps a livery stable, and both heretofore have been quiet, respectable men, and without the slightest suspicion of foul crime. The Eaglesons keep a store on Sussex street, and are somewhat noted for their extreme opinions on the question of Irish grievances.

One of them, Peter A. Eagleson, acted as marshal at the procession in this city on the 17th of March last, and both are believed to sympathize warmly with Fetterism. He was present at the scene of the assassination between 4 and 5 o'clock, when not more than 100 persons knew anything of the occurrence. His presence caused some comment and perhaps led to his arrest.

A SERVANT'S STORY.

OTTAWA, April 7.—5:30 P.M.—It is said the woman who opened the door of Mrs Trotter's house, when she heard the report of the pistol, states she heard footsteps, as of some person running away, and that soon after she also heard wheels of a carriage driven rapidly along the streets in the rear. I have not been able to verify this report, and it may be devoid of truth. A theory has been started to account for the murderer getting so near his victim as to accomplish his purpose with such certainty. It is, that after he parted from the Buckleys he was approached by some person who knew him, and who engaged him in conversation till he reached the door of his lodgings when, as he was in the act of opening the door with his latch key, the assassin presented the pistol and fired the fatal shot. This conjecture is not altogether improbable. Some suppose, however, that Mr McGee was dogged from the house by his assassin, who availed himself of the opportunity presented when the street was clear; and others think it probable he was concealed in some doorway between Metcalf street and Mrs Trotter's, and awaited Mr McGee's approach to carry out his murderous purpose. It is extraordinary that the assassin should have made good his escape without the slightest observation. There must have been a good many persons in the different streets in the neighborhood at the moment, and yet no one saw the flight of the guilty parties. How they could have concealed themselves so quickly is a mystery.

Medical.

French Medicines,

PREPARED BY
GRIMAULT & CO.
Chemists to H.I.P. Prince Napoleon,
PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from these numerous medicines advertised in the public papers as a sole cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault et Co.'s Medicines.

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atrophy, and Loss of Appetite. It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Humors and Obstructions of the Glands.

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in cases of Phthisis and other Diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.
N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Lungs

NERVOUS HEADACHE.

NEURALGIA,
DIARRHOEA, DYSENTERY,
INSTANTLY CURED BY
Grimault's Guarana.

This vegetable substance, which grows in the Brazilia has been employed since time immemorial to cure Inflammation of the Bowels. It has proved to be of the greatest service in cases of Cholera, as it is a preventive and a cure in cases of Diarrhoea.

NO MORE COCAIBA OR CUBES!

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copaba and Cubeba. The Injection is used in recent, and capsules in more chronic cases.

GENERAL DEPOTS:

In Victoria—Messrs. LANGLEY & CO.
In Paris—At Grimault & Co.'s
45 Rue Richelieu.

Insurance.

Northern Assurance Co.

FOR
FIRE AND LIFE ASSURANCE.
ESTABLISHED 1838.
INCORPORATED BY ACT OF PARLIAMENT
CAPITAL, \$10,000,000,
Fully subscribed by upwards of 700 Shareholders, whose personal liability is unlimited.
VESTED FUNDS, \$3,000,000.

This Company grants Insurances against Fire on every description of property.
LIFE DEPARTMENT
This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation in Profits is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, without any other deduction whatever. Thus the assured enjoy the profit without the liability of the Mutual System.
The participation in profits has been most liberal! Should claims arise before the next investigation, prospective bonus of nearly 1½ per cent. is allotted.
